## Welcome to GenesisCare in Guildford

Our centre is one of 14 across the UK providing world-class cancer treatment to private patients. Here in Guildford we offer some of the region's most advanced radiotherapy, working closely with leading health professionals and investing in cutting-edge treatments that are proven to be safe and effective.

Our centre is located within the BMI Mount Alvernia Hospital with its comprehensive diagnostic facilities. This means that you don't have to travel far to find the latest techniques provided as standard, with treatment starting within days or even hours of diagnosis.

As a patient, you can expect to receive the very best personalised care and a treatment plan tailored around you. We have a dedicated and highly experienced team here at Guildford and we're proud to help each and every patient through their treatment – and that so many of them have rated our care as excellent.

We're here to change the way people experience cancer treatment and care, understanding what it takes to achieve the best possible life outcomes and going a little further to provide it.

## Our GenesisCare centre in Guildford is designed for world-class cancer care

Cancer treatment and care is constantly evolving and, as a global organisation, GenesisCare stays abreast of the latest evidence-based treatments from around the world, investing in those that will benefit our patients here in the UK.

The main approaches to cancer care are early detection and diagnosis so cancers can be more easily treated, surgery to remove tumours, radiotherapy to target and destroy cancer cells and chemotherapy – a wide range of drug therapies that destroy specific cancer cells.

At our Guildford outpatient (day) centre, we provide many of these treatments on site or at nearby partner hospitals and use some of the most advanced techniques to treat all types of cancer.\*

These include powerful MRI (magnetic resonance imaging) for very detailed scans, precision radiotherapy techniques that are proven safe and effective for difficult-to-reach tumours while limiting dose to healthy tissue and high-dose radiotherapy for shorter treatment duration.

\*Surgery is undertaken at partner hospitals

**"The care, kindness, smiles and attention made the experience so much better. Very impressed with such amazing care"**

**Patient,** Guildford

Our patients are referred to us from across the Surrey area as well as further afield and we have a reputation for delivering excellent care.

Patients can also be referred to specialist services available at other GenesisCare centres within our network. These include new treatments such as MRIdian MRI-guided radiotherapy for difficult-to-treat tumours, stereotactic radiosurgery for small brain tumours and Theranostics – an innovative therapy for certain cancers when other treatment options aren't suitable or effective.

Your oncologist will work with experts throughout our network to ensure that you have the most appropriate treatment for you.

**■ It matters to us that so many of our patients can take away some positive experience from their cancer journey**

# What we offer at Guildford

## Advanced radiotherapy

- Volumetric modulated arc therapy
- Stereotactic ablative radiotherapy
- Image-guided radiotherapy
- Surface-guided radiotherapy
- Deep inspiration breath hold
- Spacing gel for prostate treatments

We offer different types of radiotherapy depending on your needs alongside advanced techniques for precision targeting.

## Chemotherapy

Chemotherapy is provided within our partner hospitals. These treatments are administered by a team of specialist nurses under the guidance of your referring oncologist.

**If you'd like more information about any of our services, please go to [genescare.com](https://www.genescare.com) or ask for one of our patient brochures**

We also have specialised services at these centres that are available to all patients

When required, we'll help our patients with transport depending on treatment and locations. Please enquire for more details.

## More than treating your cancer

We know that for many people cancer is a life-changing experience and our goal is to help you meet the emotional and psychological challenges in the most positive way possible. That's why at GenesisCare we see care differently. We believe cancer care should be focused on the individual, not just their condition. Our key specialists can offer advice on how to live with cancer and minimise the impact of treatment. They also have strong links with local cancer support networks and survivorship programmes.

We are proud to have the Macmillan Quality Environment Mark demonstrating that our centre is welcoming and accessible to all and that we are respectful and supportive, listening to you and giving you control over how you use our services.

We can design and plan treatments around work and life commitments. When required, we'll help our patients with transport depending on treatment and locations and there's ample parking if you drive. A friend or family member is welcome to come with you to your appointments and a variety of refreshments are available.

## Here for you

These are some of the different experts and support staff who make up our teams.

Your care will be led by a consultant oncologist who will work alongside our experienced team based here at our centre and partner hospital. Together they will manage your personalised treatment and care plan.

### Consultant oncologist

All of our consultant oncologists also work in regional NHS hospitals such as The Royal Surrey County Hospital. This means they have the very best knowledge and experience and are familiar with the Surrey healthcare networks. They use various methods to treat cancer, including chemotherapy and radiotherapy.

### Therapy radiographer

Involved in radiotherapy planning scans, treatment planning and delivering radiotherapy. You'll see them at every radiotherapy session.

### Dosimetrist

Helps your oncologist plan your radiotherapy treatment to destroy cancer cells while limiting damage to healthy tissues.

### Physicist

Measures the dose of radiation you receive during radiotherapy to ensure it is safe and as prescribed by your oncologist.

### Medical secretary

Provides administrative and secretarial support to our consultants.

### Patient administration officer

Responsible for booking your treatments, dealing with funding and insurance and arranging transport.

**Our key specialists also have strong links with local cancer support networks and survivorship programmes**

# We're easy to get to

From the London Orbital, exit the M25 at junction 10 and follow the A3 (S). Exit at Burpham onto the A3100 and continue over five roundabouts. At the traffic lights, turn left onto Waterden Road, crossing the junction to Harvey Road.

From the northbound A3, exit onto the A25. At the third set of traffic lights, turn right onto Stoke Road and cross the roundabout. Turn left onto York Road. Continue over two junctions to arrive at Harvey Road.

By rail, Guildford Station and Guildford London Road Station are on the main London Waterloo line.
