

We're proud to provide world-class cancer care and advanced radiotherapy treatments to people in Bristol and the surrounding areas.

Bristol
Oncology centre

Katie Price
Centre Leader

Welcome to GenesisCare in Bristol

Our centre is one of 14 across the UK providing world-class cancer care to private patients. Here in Bristol we offer some of the UK's most advanced radiotherapy, working closely with leading health professionals and investing in cutting-edge treatments that are proven to be safe and effective.

Our centre works in partnership with Spire Bristol Hospital with its comprehensive diagnostic facilities. This means that you don't have to travel far to find the latest techniques provided as standard, with treatment starting within days or even hours of diagnosis.

As a patient, you can expect to receive the very best personalised care and a treatment plan tailored around you from our dedicated and highly experienced team here at Bristol.

We're here to change the way people experience cancer treatment and care, understanding what it takes to achieve the best possible life outcomes and going a little further to provide it.

the way people
experience cancer
treatment and care**

GenesisCare
Bristol
Oncology centre

Our GenesisCare centre in Bristol is designed for world-class cancer care

Cancer treatment and care is constantly evolving, and as a global organisation, GenesisCare stays abreast of the latest evidence-based treatments from around the world, investing in those that will benefit our patients here in the UK.

The main approaches to cancer care are early detection and diagnosis so cancers can be more easily treated, surgery to remove tumours, radiotherapy to target and destroy cancer cells and chemotherapy – a wide range of drug therapies that destroy specific cancer cells.

At our Bristol outpatient (day) centre, we provide many of these treatments on site or at our partner hospitals and use some of the most advanced techniques to treat all types of cancer.*

These include powerful MRI (magnetic resonance imaging) for very detailed scans, precision radiotherapy techniques that are proven safe and effective for difficult-to-reach tumours while limiting dose to healthy tissue and high-dose radiotherapy for shorter treatment duration.

*Surgery is undertaken at partner hospitals

**"You have all
been so amazingly
comforting and
attentive when I
have needed it"**

Patient, Bristol

Our patients are referred to us from across the Bristol area as well as further afield and we have a reputation for delivering excellent care.

Patients can also be referred to specialist services available at other GenesisCare centres within our network. These include new treatments such as MRIdian MRI-guided radiotherapy for difficult-to-treat tumours, stereotactic radiosurgery for small brain tumours and Theranostics – an innovative therapy for certain cancers when other treatment options aren't suitable or effective.

Your oncologist will work with experts throughout our network to ensure that you have the most appropriate treatment for you.

**■ It matters to us that so many
of our patients can take away
some positive experience
from their cancer journey**

More than treating your cancer

We know that for many people cancer is a life-changing experience and our goal is to help you meet the emotional and psychological challenges in the most positive way possible. That's why we've partnered with Penny Brohn UK to provide a ground-breaking approach to complementary and wellbeing therapies alongside conventional medicine. Through a programme carefully tailored to your needs, we can help you to deal with the side effects of treatment, reduce stress and let you take back control.

We also offer exercise medicine, which is proven effective in improving treatment tolerance, building muscle mass and reducing cancer-related fatigue, among many other benefits. You'll be prescribed an exercise programme tailored to your cancer type, treatment and overall health – as well as your own personal goals. You'll be offered these services at no extra cost to you or your insurance provider.

We are proud to have the Macmillan Quality Environment Mark demonstrating that our centre is welcoming and accessible to all and that we are respectful and supportive, listening to you and giving you control over how you use our services.

We can design and plan treatments around your work and life commitments. When required, we'll help our patients with transport depending on treatment and locations and there's ample parking if you drive. A friend or family member is welcome to come with you to your appointments and a variety of refreshments are available.

patient
satisfaction*

*Net Promoter Score, 2019 average

Our key specialists also have strong links with local cancer support networks and survivorship programmes

Here for you

These are some of the different experts and support staff who make up our teams.

Your care will be led by a consultant oncologist who will work alongside our experienced team based here at our centre and partner hospitals. Together they will manage your personalised treatment and care plan.

Consultant oncologist

All of our consultant oncologists also work in large regional NHS hospitals. This means they have the very best knowledge and experience and are familiar with the Bristol healthcare networks. They use various methods to treat cancer, including chemotherapy and radiotherapy.

Therapy radiographer

Involved in radiotherapy planning scans, treatment planning and delivering radiotherapy. You'll see them at every radiotherapy session.

Dosimetrist

Helps your oncologist plan your radiotherapy treatment to destroy cancer cells while limiting damage to healthy tissues.

Physicist

Measures the dose of radiation you receive during radiotherapy to ensure it is safe and as prescribed by your oncologist.

Chemotherapy nurse

Administers and monitors chemotherapy, helps evaluate the effectiveness of treatment, and advises on side effects and aftercare.

Patient administration officer

Responsible for booking your treatments, dealing with funding and insurance and arranging transport.

Pharmacy team

Dispenses medicines as prescribed by your oncologist.

Medical secretary

Provides administrative and secretarial support to our consultants.

Healthcare assistant

Runs clinics and assists with and performs minor procedures.

Receptionist

Here to greet you, deal with any enquiries or changes to appointments.

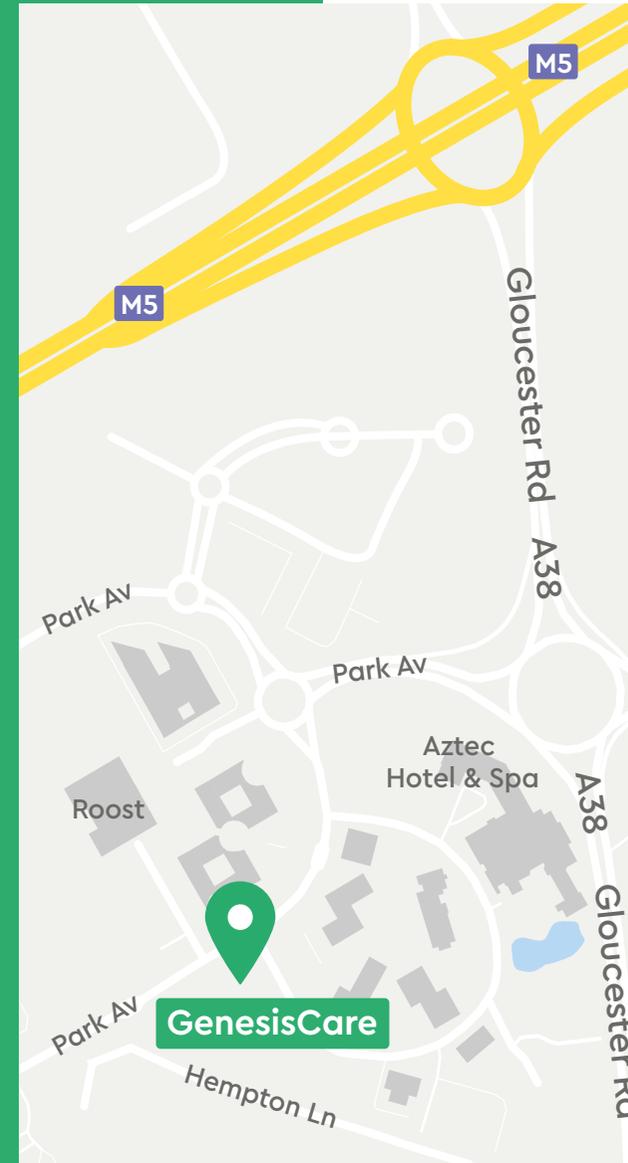

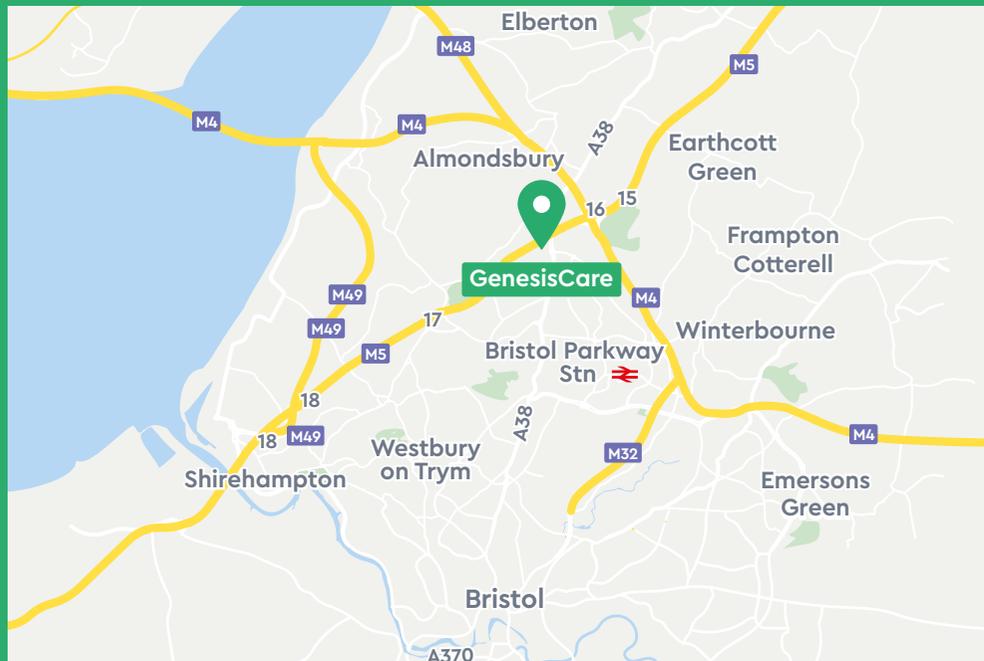

Penny Brohn wellbeing consultant

Provides complementary and wellbeing therapies that are proven to ease cancer-related concerns.

We're easy to get to

Exit the M5 at junction 16. At the roundabout, take the 4th exit onto Park Avenue. At the next roundabout, take the 1st exit onto Aztec West Business Park – where you'll find plenty of free on-site parking. Buses run regularly to Aztec West from Bristol Parkway station.

When required, we'll help our patients with transport depending on treatment and locations. Please enquire for more details.

Opening hours

Mon to Fri from 8am
with flexible closing.
