Kate Atkinson
Centre Leader

Welcome to GenesisCare in Portsmouth

We are one of 14 GenesisCare centres across the UK providing the latest cancer care to private patients. Here in Portsmouth we offer some of the most advanced radiotherapy techniques, working closely with leading health professionals and investing in cutting-edge treatments that are proven to be safe and effective.

Our centre has a partnership with Spire Portsmouth Hospital to provide comprehensive diagnostics and chemotherapy treatments to our patients. This means that you don't have to travel far to find world-class cancer care provided as standard, with treatment starting within days or even hours of diagnosis. We have a dedicated and highly experienced team at Portsmouth and we're proud to help each and every patient through their treatment – and that so many of them have rated our care as excellent.

From symptoms to survivorship – and everything in between – we're here to change the way people experience cancer treatment and care, understanding what it takes to achieve the best possible life outcomes and going a little further to provide it.

the way people
experience cancer
treatment and care**

GenesisCare
Portsmouth
Radiotherapy centre

Our GenesisCare centre in Portsmouth is designed for world-class cancer care

Cancer treatment and care is constantly evolving and, as a global organisation, GenesisCare stays abreast of the latest evidence-based treatments from around the world, investing in those that will benefit our patients here in the UK.

The main approaches to cancer care are early detection and diagnosis so cancers can be more easily treated, surgery to remove tumours, radiotherapy to target and destroy cancer cells and difficult-to-reach tumours, and chemotherapy – a wide range of drug therapies that destroy specific cancer cells.

At our Portsmouth outpatient (day) centre, we provide many of these treatments on site or at nearby partner hospitals and we use some of the most advanced techniques to treat all types of cancer.* These include powerful MRI (magnetic resonance imaging) for very detailed scans and precision radiotherapy techniques that are proven safe and effective.

*Surgery is undertaken at partner hospitals

"You not only made me feel welcome but reassured at every step of the way"

Patient, Portsmouth

Our patients are referred to us from across Hampshire as well as further afield, and we have a reputation for delivering excellent care.

Patients can also be referred to specialist services available at other GenesisCare centres within our network. These include new treatments such as MRIdian MRI-guided radiotherapy for difficult-to-treat tumours, stereotactic radiosurgery for small brain tumours and Theranostics – an innovative therapy for certain cancers when other treatment options aren't suitable or effective.

Your oncologist will work with experts throughout our network to ensure that you have the most appropriate treatment for you.

It matters to us that so many of our patients can take away some positive experience from their cancer journey

What we offer at Portsmouth

When required, we'll help our patients with transport depending on treatment and locations. Please enquire for more details.

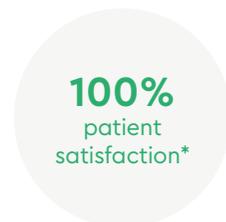

More than treating your cancer

We know that for many people cancer is a life-changing experience and our goal is to help you meet the emotional and psychological challenges in the most positive way possible. That's why we've partnered with Penny Brohn UK to provide a ground-breaking approach to complementary and wellbeing therapies alongside conventional medicine. Through a programme carefully tailored to your needs, we can help you to deal with the side effects of treatment, reduce stress and let you take back control.

Our key specialists can offer advice on how to live with cancer and minimise the impact of treatment. They also have strong links with local cancer support networks and survivorship programmes.

We are proud to have the Macmillan Quality Environment Mark demonstrating that our centre is welcoming and accessible to all and that we are respectful and supportive, listening to you and giving you control over how you use our services. We have a woodlands area, garden and quiet room for patients to have space to themselves.

We can design and plan treatments around your work and life commitments. When required, we'll help our patients with transport depending on treatment and locations and there's ample parking if you drive. We also offer focus groups for breast and prostate cancer. A friend or family member is welcome to come with you to your appointments and a variety of refreshments are available.

Here for you

These are some of the different experts and support staff who make up our teams.

Your care will be led by a consultant oncologist who will work alongside our experienced team based here at our centre and partner hospitals. Together they will manage your personalised treatment and care plan.

Consultant oncologist

All of our consultant oncologists also work in large regional NHS hospitals. This means they have the very best knowledge and experience and are familiar with local healthcare networks. They use various methods to treat cancer, including chemotherapy and radiotherapy.

Therapy radiographer

Involved in radiotherapy planning scans, treatment planning and delivering radiotherapy. You'll see them at every radiotherapy session.

Dosimetrist

Helps your oncologist plan your radiotherapy treatment to destroy cancer cells while limiting damage to healthy tissues.

Physicist

Measures the dose of radiation you receive during radiotherapy to ensure it is safe and as prescribed by your oncologist.

Clinical nurse specialist

Has additional training in a particular cancer, to help treat and manage cancer-specific symptoms or treatment side effects. We have specialists in breast, gynaecology, head and neck and urology.

Outpatient nurse

Provides wound care support, prescribes and administers medicines.

Penny Brohn wellbeing consultant

Provides complementary and wellbeing therapies that are proven to ease cancer-related concerns.

Patient administration officer

Responsible for booking your treatments, dealing with funding and insurance and arranging transport.

Our key specialists also have strong links with local cancer support networks and survivorship programmes

We're easy to get to

From the A27, exit towards B2149 Havant/Hayling Island. Take the 3rd exit off the roundabout. Pass through the centre of Havant, straight over the next roundabout onto the Petersfield Road. At the 4th set of traffic lights turn right into Bartons Road. Travel for one mile along Bartons Road and the centre is on the left.

From the A3(M), exit at junction 2 and follow signs to Emsworth for approximately four miles. At Bartons Crossroads, turn right into Bartons Road. Take the 1st right for the GenesisCare centre.

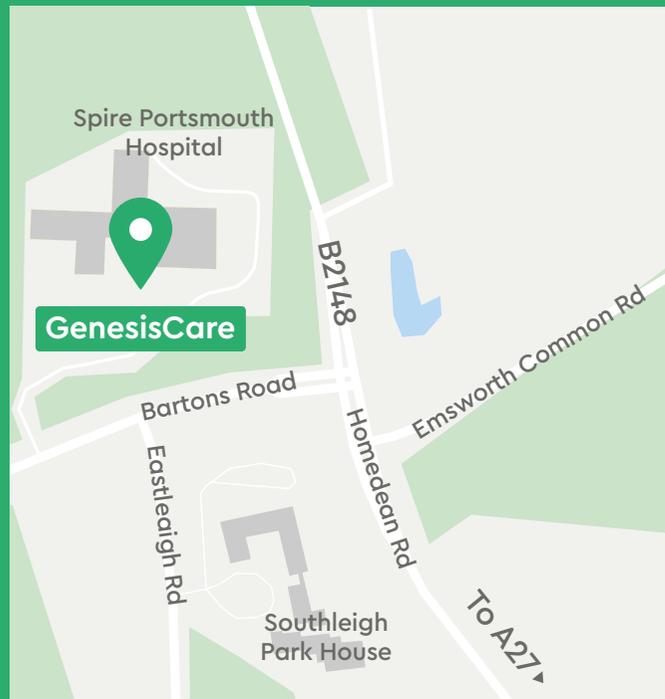

For rail users, Havant station is a short taxi journey away.

Opening hours

Mon to Fri
8.30am to 4.30pm
