Contact details:

Medicare number:

## Consultations

General

- Specialty:  Heart failure clinic  
 Pacemaker clinic  
 Arrhythmia clinic  
 Cardio-oncology service

Urgent (Express clinic applies)

CV risk assessment clinic:

- asymptomatic  
 symptomatic (+/- CT coronary angiogram)

## Step 1: Choose investigations

1. Echocardiogram (echo)\*  
 2. Transoesophageal echo (TOE)

3. Treadmill stress echo (TSE)\*  
 a) Comprehensive TSE (incl resting echo)  
 b) Focused TSE

4. Dobutamine stress echo\*

5. Exercise ECG\*  
 6. Resting ECG  
 7. Holter monitor (24 hour)\*  
 8. Ambulatory BP monitor  
 9. Calcium score (no rebate)  
 10. CT Coronary Angiogram

## Step 2: Choose MBS criteria

- a) Signs & symptoms of cardiac failure  
 b) Suspected/known ventricular hypertrophy or dysfunction  
 c) Pulmonary hypertension  
 d) Valvular, aortic or pericardial disease  
 e) Embolic disease  
 f) Other indications i.e. cardiac tumour, congenital  
 g) Cardiotoxic medication(s)

- i) Angina/atypical angina  
 ii) Exertional symptoms e.g. dyspnoea, dizziness  
 iii) Ischaemic ECG changes  
 iv) CAD detected on Angio/CT  
 v) Pre-op assessment in patients with exercise intolerance  
 vi) Valvular heart disease  
 vii) Suspected silent ischaemia

\*Please ensure MBS criteria is met when requesting any investigation to be eligible for Medicare rebate. See attached reference guide for more information. If criteria is not met, please consider Cardiologist consultation for further assessment.

## Step 3: Relevant clinical details

To prepare for your test, please visit [genescare.com/cardiology](https://www.genescare.com/cardiology)

Your doctor has recommended that you use GenesisCare for your test. Should you wish to use another provider, please discuss this with your doctor first.
